Overview

Identifying all of the regulatory requirements a new business must satisfy can be overwhelming. In working with entrepreneurs, we've discovered an abundance of information about how to begin a new business. However, much of the information available mixes suggestions and requirements – how does one know the difference?

This guide was developed to make the daunting task of identifying the requirements for new businesses easier. It serves as a comprehensive checklist that identifies the regulatory requirements that must be satisfied in order to operate a new business in Indiana. While the guide was developed with food and agricultural entrepreneurs in mind, the information provided can be applied to any business. The first checklist in the guide applies to all beginning businesses in Indiana, whether related to agriculture or not. The second identifies requirements for businesses with employees. The third identifies requirements for businesses with specific environmental concerns, such as air and water permits. The fourth and fifth checklists identify requirements for food businesses at the wholesale and retail level. Finally, the sixth checklist identifies requirements for business that will handle animals or animal products.

Additionally, this guide includes state and county-level agency directories, a portion of Indiana Code detailing business structure registration requirements, and an index of additional requirements for specific occupational businesses.

Entrepreneurs can pick and choose the checklists that suit their particular business. For example, if a new food business will construct a new facility and pay employees, the applicable checklists would be 1, 2, 4, and 5 (general checklist, checklist for businesses with employees, checklist for businesses with environmental concerns [because construction will occur], and checklist for businesses involved with food handling at the retail level).

The information provided here is intended to make the administrative components of beginning a business in Indiana as simple as possible. We hope we have been successful.

This guide is also available free online at <http://www.agecon.purdue.edu/newventures>. The online guide will be updated on a regular basis. Individuals assisting entrepreneurs can use the online guide as a resource in working with clients by downloading applicable checklists and resources specific to that client's business.

Indiana Code Pertaining to Business Structure Registration Requirements

Limited Partnerships (Indiana Code (IC) 23-16-3-2)

Section 2

(a) To form a limited partnership, a certificate of limited partnership must be executed and filed in the Office of the Secretary of State. The certificate must include the following:

- (1) The name of the limited partnership.
- (2) The address of the office and the name and address of the agent for service of process required to be maintained by IC 23-16-2-3.
- (3) The name and the business address of each general partner.
- (4) The latest date upon which the limited partnership is to dissolve.
- (5) Any other matters the general partners agree to include.

(b) A limited partnership is formed at the time of the filing of the initial certificate of limited partnership in the office of the Secretary of State or at any later time specified in the certificate of limited partnership if, in either case, there has been substantial compliance with the requirements of this section. Unless the certificate specifies an effective date that is different from the filing date, the time and date of the filing of the certificate is conclusive evidence as to when a limited partnership is formed.

Limited Liability Partnerships (IC 23-4-1-45)

Section 45

(a) To qualify as a limited liability partnership, a partnership under this chapter must do the following:

- (1)) File a registration with the Secretary of State in a form determined by the Secretary of State that satisfies the following:
 - (A) Is signed by one (1) or more partners authorized to sign the registration. A signature on a document under this clause that is transmitted and filed electronically is sufficient if the person transmitting and filing the document:
 - (i) has the intent to file the document as evidenced by a symbol executed or adopted by a party with present intention to authenticate the filing; and
 - (ii) enters the filing party's name on the electronic form in a signature box or other place indicated by the Secretary of State.
 - (B) States the name of the limited liability partnership, which must:
 - (i) contain the words "Limited Liability Partnership" or the abbreviation "L.L.P." or "LLP" as the last words or letters of the name; and
 - (ii) be distinguishable upon the records of the Secretary of State from the name of a limited liability partnership or other business entity registered to transact business in Indiana.
 - (C) States the address of the partnership's principal office.
 - (D) States the name of the partnership's registered agent and the address of the partnership's registered office for service of process as required to be maintained by section 50 of this chapter.
 - (E) Contains a brief statement of the business in which the partnership engages.
 - (F) States any other matters that the partnership determines to include.
 - (G) States that the filing of the registration is evidence of the partnership's intention to act as a

limited liability partnership.

(2)) File a ninety dollar (\$90) registration fee with the registration.

(b) The Secretary of State shall grant limited liability partnership status to any partnership that submits a completed registration with the required fee.

(c)) Registration is effective and a partnership becomes a limited liability partnership on the date a registration is filed with the Secretary of State or at any later date or time specified in the registration. The registration remains effective until it is voluntarily withdrawn by filing with the Secretary of State a written withdrawal notice under section 45.2 of this chapter.

(d) The status of a partnership as a limited liability partnership and the liability of a partner of a limited liability partnership is not adversely affected by errors or subsequent changes in the information stated in a registration under subsection (a).

(e) A registration on file with the Secretary of State is notice that the partnership is a limited liability partnership and is notice of all other facts set forth in the registration.

Limited Liability Companies (IC 23-18-2-4)

Section 4

(a) At least one (1) person may form a limited liability company by causing articles of organization to be executed and filed for record with the office of the Secretary of State. A person does not need to be a member of the limited liability company at the time of formation or after formation has occurred.

(b) Articles of organization shall contain the following:

(1) The name of the limited liability company.

(2) The street address of the limited liability company's registered office in Indiana and the name of the limited liability company's registered agent at that office.

(3) The latest date upon which the limited liability company is to dissolve, or a statement that the duration of the limited liability company is perpetual until dissolution in accordance with this article.

(4) If the articles of organization provide for a manager or managers, a statement to that effect.

(5) Any other matters not inconsistent with this article that the members agree to include, including any matters that are required to be or may be included in an operating agreement under this article.

Corporations (IC 23-1-21-2)

Section 2

(a) The articles of incorporation must set forth:

(1)) a corporate name for the corporation that satisfies the requirements of IC 23-1-23-1;

(2) the number of shares the corporation is authorized to issue;

(3) the street address of the corporation's initial registered office in Indiana and the name of its initial registered agent at that office; and

(4) the name and address of each incorporator.

(b) The articles of incorporation may set forth:

(1) the names and addresses of the individuals who are to serve as the initial directors;

(2)) provisions not inconsistent with law regarding:
