

THE DEPT OF FORESTRY & NATURAL RESOURCES PRESENTS

SPRING 2024 SEMINAR SERIES

WEDNESDAY APRIL 24, 2024
PFEN 241 2:00PM - 3:00PM

JOIN US FOR A LECTURE AND CONVERSATION WITH

TOM S. CHUNG FAIA, LEED AP BD+C

Tom S. Chung is Principal at Leers Weinzapfel Associates and Professor of Practice at Auburn University.

Everyone is welcome to attend. This series aims to stimulate discussion and create opportunities for collaborations.

Mass Timber for our Sustainable and Versatile Built Environment

Mass Timber is gaining traction as a renewable, low-embodied carbon building material critical to our goal of reducing carbon emissions and increasing carbon sequestration. Through his projects, Tom will share key aspects of mass timber design that are vital for success across a wide range of building programs and sizes. Issues of building with local materials, maximizing wood, material and labor constraints, cost, spatial character and complexity of form will be highlighted across these projects.

LOCATED IN PFENDLER HALL, DEAN'S AUDITORIUM, 715 W STATE STREET, WEST LAFAYETTE, IN 47907

IF YOU ARE INTERESTED IN MEETING WITH TOM CHUNG PLEASE CONTACT DR. HENRY QUESADA AT HJQUESADA@PURDUE.EDU
